Phil Davy's Layered Puzzle Materials (Nov 2007)

It is difficult to give an exact price as all of the hardwoods utilized in making this puzzle come in random sizes. If you wanted to order materials to make your own puzzle or perhaps several, as a class project, then you would need to order one full board of each of the three species along with one full sheet of either veneered or standard MDF. Using average sized boards would yield the following: -

Planed Two Sides 2440 x 170 x 8 mm = 0.415 m²

Sycamore @ £26.01/m² => £10.79

Lightly Steamed Beech @ £21.50/m² => £8.92

Sapele @ £22.37/m² => £9.28

So the total hardwood price would be £28.99 allowing 50% waste would mean £43.49 would be the approximate price to produce 9 of the puzzles.

With regard to the base, one 2440 x 1220 mm sheet would be enough to produce 10 bases. The sensible options for this would be :-

Oak Veneered Two Sides MDF 2440 x 1220 x 19 mm @ £50.34

Or for a cheaper option

Standard MDF 2440 x 1220 x 18 mm @ £23.54

If this is all that is being ordered then there would be a £20.00 delivery charge. V. A.T. is additional. Delivery FREE on orders over £200
